Thief Would Need Two Years To Open Lock

FLORENCE, Italy — (AP) — A burglar would need up to two years to open his new type lock, says Dr. Mario Materozzi.

That's if he has the key. Be-

cause this lock requires both a key and a combination. There is almost no mathematical limit to the number of combinations possible, depending upon the number of notches on the key and tumbler in the lock. Just a small size lock and key will give from 4,000 to one million possible combinations. Try a classified.
