Take Off Ugly Fat With Grape Fruit Juice Recipe

It's simple. It's amazing. how quickly one can lose pounds of bulky, unsightly fat right in your own home. Make this recipe yourself. It's easy—no trouble at all and costs little. It contains nothing harmful. Just go to your drugstore and ask for four ounces of Liquid Barantra. Pour this into a pint bottle and add enough grapefruit juice to fill bottle. Then take two tablespoonfuls twice a day. That's all there is to it. If the very first bottle doesn't show you the simple, easy way to lose bulky fat and help regain slender, more graceful curves; don't just seem to disappear almost like magic from neck, chin, arms, bust, abdomen, hips, calves and ankles, just return the empty bottle for your money back. Follow the easy way endorsed by many who have tried this plan and help bring back alluring curves and graceful slenderness. Note how quickly such disappear—how new, alive, youthful appearing and active. (Adv.)
