JACOBY ON BRIDGE

By Oswald Jacoby

Some experienced players use the response of two no-trump to show a good balanced hand of almost any strength.

This is unsound, as Sam Stayman points out in his new book "Expert Bidding."

Every no-trump bid should have a definite floor and a definite ceiling.

In today's hand for example, South makes a response of three no-trump. This shows the value of a minimum opening no-trump.

The South hand, as shown today, is exactly the same hand that was shown earlier in the week as an example of the opening bid of one no-trump.

When North opens the bidding with one spade, South shows his strength and type of hand by jumping to three no-trump.

Now North says to himself, "Suppose my partner had opened this hand with one no-trump. Where would I then want this hand to be played?"

He then sees that the partnership is close to a slam, and that the situation calls for some exploring. He therefore bids four clubs.

South properly raises to five clubs. This showing a good fit for

clubs and a willingness to consider a slam. Otherwise, South could put out on the brakes by bidding four spades or even four of either red suit.

Now North makes a very thoughtful bid—five no-trump. This asks South to choose the best

might be hurt by a lead through one of the red suits. A no-trump slam, however, would find the lead coming up to the South hand. Hence South bids the slam in no-trump.

The slam is easily made. South has 10 tricks in the black suits. He merely sets up one heart trick, after which the ace of diamonds yields the 12th trick.

Note that a slam at clubs would be defeated if East led diamonds. This would be a logical lead for him to make, so that the North-South bidding gains about 1500 points by playing the slam at no-trump rather than at clubs.
