WHY IS SARAH GOING TO SEED?

What a pity to see a beautiful girl like Sarah so to seed ... drained of healthy color...lacking pep and enthusiasm... looking old before her time.

Doctors tell us that many such tragedies can be avoided. Many, many men and up to 2 out of 3 women, par-ticularly those from 15 to 50, suffer needlessly from a simple iron deficiency. And it's these women who sorely need an abundance of iron to tebuild rich, red blood that renews strength and energy ... puts the roses back in your cheeks.

Thousands who once were pale and pallid, tired and run-down, have restored health and vigor with IRONIZED YEAST tablets—a concentrated iron tonic formulated specifically to help you revive weakened, washed-out blood-cells.

Weakness and pallor can have other causes, so see your doctor regularly. But if iron deficiency has you feeling worn and wasted...drains color from your theeks...start taking IRONIZED YEAST right away. For IRONIZED YEAST has the vital iton you may need to regain your youthful sparkle, vitality and enthusiasm.

Get IRONIZED YEAST at your drug counter today. See how its daily use can help you be your old time self again... for just a few pennies a day. (Adv.)
