

# Rhee Crisis Nears Climax

PUSAN, Korea (AP)—South Korea's political crisis neared a climax Monday as President Syngman Rhee handed the Assembly an ultimatum—adopt his proposed constitutional amendments quickly or he would dissolve the Legislature.

"I will wait only a few more days," Rhee declared. "I will take decisive action to compliance with the will of the people."

Rhee did not indicate how he would go about dissolving the Assembly. He said he would make the decision to dissolve the Assembly after consulting with the cabinet.

THE 77-YEAR-OLD President and the National Assembly have been feuding bitterly since January. Rhee demanded constitutional amendments providing for a two-house Legislature.

The one-house Assembly elected the President in 1948 was scheduled to go to work last week but Rhee supporters forced postponement of the election.

## Transient Bound Over On Burglary Charges

GRAND FORKS (AP)—A 52-year-old man was bound over to district court here, charged with the burglary of the Congress Candy and Distributing Co. of Grand Forks.

Loren Mills whose residence is unknown was captured about 4 a. m. Friday by Grand Forks police and although he hadn't admitted the burglary, employees of a nearby firm who saw a man jump from a second floor window of the Congress building identified Mills as the man they saw.

Nothing was reported missing from the building Mills was charged with burglarizing, but the dial on his office safe was broken off. A burglar alarm had sounded and a tear gas jet in the safe dial let loose, apparently frightening the burglar away.

He appeared in municipal court, waived preliminary hearing and was bound over to district court on \$2,000 bail. He was held in the county jail in default of the bond.

## Aerial Tour Attracts 108 in Bowman District

BOWMAN—The first annual aerial tour sponsored by the Bowman Soil Conservation District attracted 108 persons recently despite bad weather. The reaction of those making the flights was unanimously favorable, with the most common reaction surprise at the amount of strip cropping being practiced.

Decorator's delight! Plant a vegetable garden right in your kitchen in sparkling tomato-red and cool fern green! Motifs—luscious as life, can be quickly ironed right on your kitchen towels, tablecloths, curtains, also aprons and potholders!

Quick! Easy! Washable! Two color transfers! Pattern 7310 has 18 motifs, about 3 1/2 x 4 1/2 inches

Send TWENTY-FIVE CENTS in coins for this pattern to The Bismarck Tribune, 232 Household Arts Dept., P. O. Box 168, Old Chelsea Station, New York 11, N. Y. Print plainly NAME, ADDRESS, ZONE AND PATTERNS NUMBER.

Exciting! Our 1952 edition of Alice Brooks Needlecraft Book! Brimful of new ideas, it's only twenty cents NINETEEN illustrations of patterns in your favor.

# Egypt Struggles With Another Cabinet Crisis

ALEXANDRIA, Egypt (AP)—Turmoil in Egypt's government continued Monday after the resignation of Prime Minister, Ahmed Naguib Hilaly Pasha, and the naming of another veteran independent politician, Hussein Sirry Pasha, to form a new government.

The 60-year-old Sirry Pasha, who has been Premier three times before, received King Farouk's mandate to form a Cabinet Sunday night and at once began discussions with political leaders.

His task was made more complex by the usual summertime dispersal of government activity between the season and offices in Cairo. Politicians shuttled back and forth between the two capitals.

NO OFFICIAL reason was given for Hilaly Pasha's resignation Saturday, but there was speculation that he had not moved fast enough with his announced program of cleaning up graft in the Egyptian government and winning the nation's chief aims—to oust the British from the Suez Canal zone and to unify Egypt and the neighboring Anglo-Egyptian Sudan.

Disputes over the Cabinet crisis were subject to considerable delay. The cable and wireless office in London said an Associated Press dispatch Saturday, reporting Hilaly's resignation, was held by Egyptian censors for 36 hours.

Hilaly, himself, refused to make any statement to newsmen on his resignation.

AN OUTGOING Cabinet minister, however, said the government "had found several obstacles which have made our job impossible."

His only other explanation was that "certain irresponsible persons" had approached the U. S. Embassy in Cairo in an effort to undermine Hilaly.

An embassy spokesman at once asserted that U. S. policy "is not to interfere with the domestic politics of another country, and this policy has been adhered to strictly by this embassy."

The Egyptian press recently had criticized the Premier for the stalemate in talks with the British on the Suez and Sudanese questions. The British unofficially have agreed to evacuate the canal zone by stages but still refuse to recognize King Farouk's sovereignty over the Sudan, which Britain now administers.

DULUTH, Minn. (AP)—Mrs. Evelyn Paro, 44-year-old bookkeeper-waitress who appealed for foster parents for her two young sons after she found she had cancer, died Saturday afternoon. Her sons were still without a permanent home.

Mrs. Paro, a divorcee, had been told by doctors late in April she could not hope to live more than a few weeks.

She had been working days as a bookkeeper and nights as a waitress to support her sons, Gerald, 6 and Gordon, 9.

Clerk, Carrier Jobs Announced Open Here

Applications are now being accepted for the positions of substitute clerk and substitute carrier at the Bismarck postoffice, the U. S. Civil Service regional office at St. Paul has announced.

The beginning basic rate of pay is \$16 1/4 per hour. Application forms and further information may be obtained from the inquiry window at the Bismarck postoffice.

# Wildlife Experts

DISCUSSING WATERFOWL regulations with H. R. Morgan, North Dakota Game and Fish Commissioner, and retiring president of the Central Flyway Council, are (left to right) A. D. Aldrich, Assistant Game and Fish Director for Oklahoma, and Elmer Peterson, South Dakota Game and Fish Director. At the annual meeting of the Central Flyway Council Friday, Aldrich was named president and Peterson vice president.

# Glancing Around The Slope

A bar in NEW ENGLAND has installed a television set. Reception is said to be good on certain days.

A meeting was held in NEW ENGLAND last week to discuss a rural telephone system.

The bell tower of the HETTINGER Methodist Church was struck by lightning. The blaze was quick.

A new metal propeller was stolen from the Brick City Flying club plane of HEBRON. The club has offered a reward for the return of the propeller.

A barn on the George Fuhn farm near FLASHER was struck by lightning and completely destroyed.

Clyde Boyko, STANTON, has completed a one-year rural course at the Dickinson State Teachers College.

The Mountrail County School Officers Association held its annual meeting at STANTON. Election of officers took place and Bern Dolan, White Earth, was elected as chairman.

A new modern drive-in theater has been opened at REGENT. It is located three miles east of town.

The Red Cross is sponsoring a swimming program at the Mandan pool. GLEN ULLIN days are Monday and Wednesday.

The Hotel Turtle Lake cafe in TURTLE LAKE is being remodeled.

Jeannette Haskell, ASHLEY, attended Girls State at Grand Forks.

Land owned by the McIntosh Fair Association has again been seeded to flax by the ASHLEY Hospital Association. Last year about \$1,000 was realized from this project.

The bell tower which has stood for 40 years above the front door of the REGENT school has been razed.

Meyer on Farm Bureau Resolutions Committee

Herman Meyer Jr., Baldwin, has been named to represent Burleigh County on the North Dakota Farm Bureau's resolutions committee, G. J. Stafne, Fargo, state secretary has announced.

The first meeting of the committee will be held at Jamestown Tuesday. Task of the committee is to adopt a 1953 platform for the organization to be acted upon in county meetings before the state convention in Bismarck Nov. 9-12.

Mossadegh Backers Lose, Stage Walkout

TEHRAN, Iran (AP)—A walkout by supporters of Prime Minister Mohammed Mossadegh has blocked the election of an anti-government man as speaker of the new Majlis, the lower house of Parliament.

In voting in the house Sunday Dr. Hassan Imami, a religious leader and longtime foe of the Prime Minister, received 33 votes for the post to 17 and 16 for two pro-Mossadegh candidates.

# Polio Experiment Begins This Week

HOUSTON (AP)—Experimental inoculation of 55,000 young children will begin this week in a mass test of a drug to prevent paralysis from polio.

Medical scientists, financed by the National Foundation of Infantile Paralysis, will begin giving shots of gamma globulin Wednesday. Half the children will get the harmless blood fraction and the other half will get a neutral inoculation. Only the University of Pittsburgh research men will know which children get the gamma globulin.

THE TESTS were planned after Houston and Harris County passed the state regarded as epidemic by the national foundation.

By last week, Houston had reported 140 city cases and six deaths, and 96 non-resident cases and six deaths.

Meanwhile, Nina Warren, 18, daughter of Gov. Earl Warren of California, came to Houston with a message of hope for polio sufferers.

THE PRETTY blonde looked as if she had never been ill. Yet only 18 months ago "Honeybear" Warren was paralyzed from the waist down.

"The most important thing to remember is that people do recover from polio," she said. "People don't hear so much about complete recovery. That's one reason why they fear the disease so much."

Dr. William Hammon of the University of Pittsburgh will direct the inoculation of the children here.

# Advice Issued on Late Feed Crops

BEULAH—Advice on the plant in late feed crops to take advantage of the recent rains has been issued by Mercer County Agent Thomas A. Martindale.

As a guide to what to plant he issued the average yields of the various crops at the Great Plains Experiment Station at Mandan during the period 1915 to 1942. Crops and average over those years included:

Dakota Amber cane, 1.99 tons per acre; Siberian millet, 1.78 tons per acre; Sudan grass, 1.45 tons per acre; and Proso hog millet, 1.17 tons per acre.

When field-cured for fodder, corn averaged 13.4 tons per acre and when harvested as silage made 4 tons.

Cane, millet and Sudan grass are normally planted the first part of June, but may be planted later if sufficient moisture is available for late seeding as is now the case.

In dry years, experience was more favorable when the crops were planted in rows.
