HARMONY JOINT School Svs
tem's new junior-senior high school, now under construction in Burnside Township, will have this general appearance when completed about a year from now.

The sketch, prepared by the architectural firm of Hunter, Caldwell & Campbell of Altoona,

shows the brick building will have an L shape, with the side fronting on the road having two floors. There will be about 16 classrooms and the wing to the right

will house the shop, music and agriculture rooms, boiler room, etc. Laying of the outside brick wall began last week. Most floors

will be concrete on steel, covered by asphalt tile. The building has no basement. The anticipated completion date is July 7, 1953.

S. M. U. Receives Library Addition

DALLAS (AP)—Southern Methodist University has been presented a set of the Great Books of the Western World as an addition to their library.
The volumes said to contain every great non technical idea of man were presented to university President Umphrey Lee by William J. B. O'Connell, president of a business firm. It has been estimated that 10 years would be needed to absorb all the ideas contained in the books.

Ohio State Has Old Research Program

COLUMBUS O. (AP)—The widely known geologic research program of Ohio State University dates back to a couple of immigrants who came to the Italian

Boy Scout Inspiration Proves Its Worth

MEMPHIS Tenn. (AP)—Ira Guste, 23, is a taxidermist who got his interest in animals from his days as a Boy Scout.
Now many of the animals that die at the zoo as well as hunters' trophies end up in his shop for stuffing. Some of them go eventually into Fortune's Jungle Garden.
First he skins the animal, picks and tans the hide and finally mounts them. The skin goes over a paper mache form.

Chinese Reds Rap U. S. Publications

HONG KONG P.—The Chinese Communists have found venomous worship of U. S. ideology in a couple of their own geographical texts.
The official Peoples Daily of Peking charges one book made the party the error of saying the United States led in reserves and output of coal, oil and iron and was first in the production of copper, zinc and lead.
The newspaper said the geography should have noted instead that Russia surpassed the United States in copper and lead reserves. The book also erred in failing to mention the agrarian purposes of the U. S. in the Pacific.
The newspaper rapped the second book for observing: "The rich mineral resources are the major factors in the U. S. success as a capitalist nation at the highest industrial level in the world."
Teebees of glacial origin frequently carry rocks and earth for considerable distance across the sea as they float with ocean current and winds.

FAIREST OF THE UNITED NATIONS

APPEARING At a fashion show in New York Rene Malhame (center) of Lebanon is judged Miss United Nations. Young women of the UN colony were the models. Runners-up were Bianca Alvarez (left) of Venezuela and Myra Yaron of Israel. (International)

Girl's Pet Monkey Dreams Fulfilled

DALLAS — (AP)—After Rose Marie Sebastian, 11, became almost completely paralyzed by polio, the desire she had always had for a pet monkey became stronger.
A letter she and her mother wrote to the Brownsville zoo has produced results through a monkey importer. The monkey was recently trapped in Costa Rica and began a long journey to the bedside of Rose Marie.
"I can't wait till he gets here," she said. "Mama fixed a bed for him right next to mine."
The height of waves is increased when they flow into a channel the sides of which converge but decrease in expanding channels.
