

State Asks Bids On Road Bonds

41-2 Million Block To Be Marketed

By the Associated Press
Bids on \$4,500,000 worth of bonds will be received until p. m. July 19. Gov. Paterson announced Thursday.

The issue will be the first \$50,000,000 secondary bonds approved by the voters in the 1948 elections.

Gov. Paterson said that it "contemplated that the issuance of these bonds will extend over a period of at least four years, possibly five years, depending on the availability of labor, materials and favorable prices."

The authorizing legislation provided by the 1949 legislature specified that not more than \$1,000,000 might be issued in any one biennium.

The bonds will be 15-years maturity type, as compared with the usual 25-year maturity of the previously issued by the state. They will be retired at the rate of \$300,000 annually, beginning January 1, 1950.

The governor said that the department service on the bonds for the present, will be met from the "miscellaneous" receipts of the state road fund.

He added that it is anticipated that the legislature will provide additional funds for debt service, such as a substantial amount.

Summarizing the status of the indebtedness, as of July 1, 1929, Gov. Paterson said there are outstanding \$60,822. These include \$48,522,000 of the authorized \$50,000,000 revolving is approved in 1920. In addition \$12,300,000 worth of bonds outstanding of the \$35,000,000 approved under the second good roads amendment of 1928. These are not of revolving nature.

road commission would have available during 1949-50, \$16,989,477 for the construction and maintenance of roads. This would be explained, from general receipts, including the five-cent gasoline tax and the license-per-

Gov. Patton said that in addition to this would be the amount received from the sale of bonds and from federal aid.

An approximate \$3,000,000, earmarked for secondary road repairs, also will be available, he said. Tax sources are a special title tax certificate and state capital tax of \$1.

W. Va. Fugitive Asks Kentucky's Governor for Aid

A West Virginia court convicted him, but Palmer Ke
36, thinks the governor of K
tucky should help him.

Kelly, who walked away from
a prison road camp at R
dale, Braxton county, last we
sent word to the Kentucky g
ernor from his hideout in
Kentucky hills.

The story was passed on
President Joe R. Burdett of
hills of the West.

Kentucky authorities said Kelly had asked to make a personal appearance before Gov. E. C. Clements. Kelly indicated he hoped to convince the governor that he was innocent.

Kelly was convicted in McDowell county Aug. 2, 1948 on an armed robbery charge, and was sentenced to a 15-year penitentiary term.

Gov. Clements has not indicated what action he may take.

Many Failures

PITTSBURGH HUP—Hundreds of ex-servicemen set up in business here by government loans are learning that being your own boss isn't what it's cracked up to be. The fatality rate is one out of ten. The fatality rate is one out of ten, with trucking businesses accounting for the greatest number of failures. Among the most successful are motor vehicle service stations and grocery stores.

The government has underwritten 2,539 loans in the 31-county Pittsburgh district for ex-GI's who wanted to set up their own businesses. Failures have totaled 148 and an additional 101 are about to be ready to close up.

Veterans in this district have obtained \$10,000,000 in business loans and failures have cost the government \$128,000 to date, according to Edmond C. Campana, loan guaranteed officer of the local Veterans Administration office.
